

KELVIN OLADOTUN ESANOLUWA

Budget Analyst · Financial Planning · Quantitative Risk · Actuarial Science

17 Ugochukwu Orji Street, Westgate Estate, Igbo Efon, Lagos, Nigeria

+234 812 403 1683 · Dotun_esanoluwa@yahoo.com · Open to full-time roles in Lagos

PROFESSIONAL SUMMARY

Industrial Mathematics graduate and actuarial science postgraduate with hands-on public-sector experience in budget formulation, expenditure control, cost analysis, and stakeholder reporting. Combines a strong numerical foundation with practical work at the Lagos State House of Assembly and its Service Commission, plus early commercial exposure in airline procurement. Comfortable moving between spreadsheets, financial schedules, and clear written advice. Seeking a Budget Analyst, Financial Analyst, Risk Analyst, or Actuarial Analyst role where careful quantification and reliable documentation support better funding and risk decisions.

CORE QUALIFICATIONS

- Budget formulation, allocation scheduling, and in-year expenditure monitoring for designated public votes.
- Cost, variance, and management-information analysis that turns financial reports into decision-ready briefings.
- Quantitative methods from industrial mathematics and actuarial postgraduate study: probability, forecasting, financial mathematics, and risk assessment.
- Document control and data validation — checking source figures, reconciling returns, and keeping audit-ready working papers.
- Stakeholder communication with supervisors, directorates, and non-finance users who need plain-language budget clarification.
- Applied Excel modelling for projections, lookups, pivot summaries, charts, and purchase or budget tracking workbooks.
- Research discipline across qualitative and quantitative sources, with accurate written findings and formal cost notes.
- Procurement support skills: quotations, cost parameters, vendor records, and inventory-related purchase documentation.

PROFESSIONAL EXPERIENCE

Budget Officer — Lagos State House of Assembly

May 2017 – June 2018 · Lagos, Nigeria · Full-time

- Supported the annual budgeting and financial planning cycle by preparing allocation schedules and expense projections for designated votes.
- Interpreted appropriation and management reports so supervisors had timely, accurate figures for funding and reallocation decisions.
- Monitored balances and expenditure against approved provisions, helping protect the financial integrity of assigned budget lines.
- Coordinated budgetary and statistical data from contributing units, reconciled inconsistencies, and maintained clear working papers.
- Produced cost analyses of recurrent and capital spend and issued formal written findings for internal review.
- Briefed stakeholders on budget status, implementation questions, and the practical meaning of figures in management reports.

Budget Officer (National Youth Service) — Lagos State House of Assembly Service Commission

September 2014 – September 2015 · Lagos, Nigeria · NYSC

- Prepared financial schedules and supporting documents used in state budget compilation and internal review.
- Checked the validity, completeness, and consistency of figures supplied in financial documents before onward use.
- Worked with other departments to clarify information needed for effective implementation of budgets and budgetary policy.
- Built an early working knowledge of public-sector budget language, vote control, and inter-departmental reporting.

Procurement Officer (Industrial Internship) — Arik Air Plc

March 2009 – August 2009 · Lagos, Nigeria · Internship

- Improved day-to-day retrieval of procurement records by sorting documentation into a clearer, more accessible filing system.
- Assisted with acquisition of operational items, including gathering quotations and supporting purchase documentation.
- Helped estimate and record cost parameters and purchase budgets so orders stayed within agreed limits.
- Built spreadsheets to track supplier information, order status, and relevant commercial details for the team.
- Supported price and fee comparisons while helping the function maintain continuity of required services.

EDUCATION

M.Sc. Actuarial Science (Part-time) — University of Lagos

Commenced 2020 · In progress

Postgraduate study covering probability and statistical inference, financial mathematics, life contingencies, survival models, risk theory, insurance mathematics, and quantitative modelling for insurance and financial risk. Builds directly on undergraduate mathematics and on practical budget and cost-analysis work.

B.Sc. Industrial Mathematics — Second Class Honours — Covenant University, Ota, Ogun State

Awarded 2014

Core training in calculus, linear algebra, differential equations, probability and statistics, operations research, numerical analysis, mathematical modelling, and financial mathematics. Developed the quantitative habits used later in budgeting, forecasting, and risk analysis.

West African Senior School Certificate — Dansol High School, Agidingbi, Ikeja

WASSCE: 2 Distinctions, 3 Credits, 4 Passes · Junior WAEC: 5 Distinctions, 6 Credits

TECHNICAL SKILLS

Budgeting & finance: Budget preparation, allocation control, expenditure monitoring, cost analysis, financial planning, forecasting, variance review, management reporting.

Quantitative methods: Financial mathematics, probability, statistical description, quantitative risk assessment, business research, qualitative and quantitative analysis.

Tools: Microsoft Excel (lookups, pivot tables, charts, financial schedules), Word, PowerPoint; coursework exposure to statistical packages used in actuarial study (SPSS / R).

Operations: Documentation control, inventory-related cost parameters, procurement records, data validation, formal report writing.

Working style: Accuracy, attention to detail, independent thinking, stakeholder briefing, and a steady habit of checking figures before they are issued.

ADDITIONAL INFORMATION

- Language: English — professional written and spoken communication for reports, briefings, and correspondence.
- National Youth Service completed (2014–2015) with a budget posting at the Lagos State House of Assembly Service Commission.
- Applied knowledge areas: time value of money and discounted cash-flow reasoning; probability and descriptive statistics; public appropriation and vote-head monitoring; cost estimation for operational purchases.
- Work authorisation: Nigerian citizen, based in Lagos and available for full-time office or hybrid roles.

INTERESTS

Financial magazines and educative articles; philosophy and motivational reading; novels; writing poetry. Continued personal study in risk, insurance mathematics, and practical financial analysis.
